

# 5" LED Round Light

## Instruction

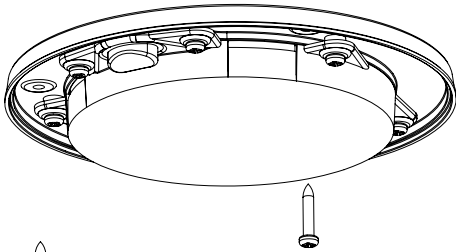

### Installation

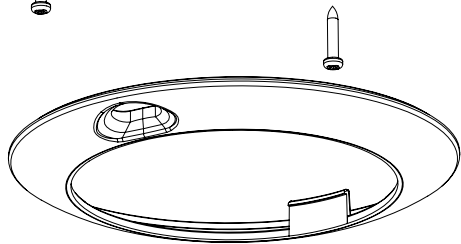

#### Step 1.

Aim at the pointed slot by a slot-head screwdriver and rotate right to pry open the bezel.

#### Step 2.

Install the light fixture to any surface by attached screws.

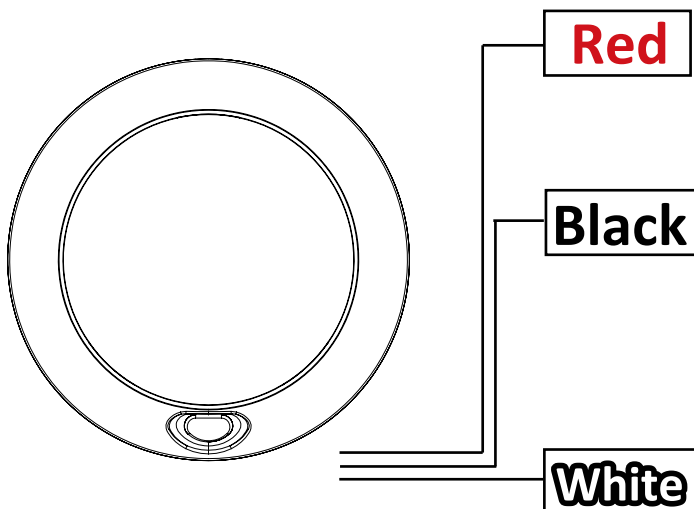

#### Step 3.

#### Step 3.

Before you place the bezel back to the light, align the hole on the bezel with the switch button at an angle of 45 degrees, this will ensure the bezel and the base fit perfectly.

### Wiring

This light is reverse polarity protected.
